Competition Rules.

WARNING ABOUT INHERENT DANGERS OF BASEBALL

The Rules and Procedures issued by Sydney Metropolitan Baseball League are designed to maximise the enjoyment, fairness and safety of our game. Officials and players should be aware that baseball, like all sports, will always have inherent dangers.

Some of these dangers arise from batted balls and collisions with other players. Care should be taken by all concerned to minimise such dangers through the use of appropriate equipment (including protective equipment), proper training methods and awareness of risks.

1. General.

1.1 All games will be played under the "OFFICIAL RULES OF BASEBALL" as adopted by the AUSTRALIAN BASEBALL FEDERATION provided that, if there is a conflict, the competition rules as follow shall prevail.

1.2 The Management Committee reserves the right to vary any of the competition rules at any time, if special circumstances warrant such action. Any substantial variation to these rules will be notified to League and Club representatives.

2. Competition Structure.

2.1 The method of conducting competitions for clubs shall be as approved by the League each season.

2.2 The League will conduct competitions in graded Divisions.

2.3 Position in the competition table shall be decided by dividing the number of games played by games won and calculated to a third decimal point. A drawn or tied game shall be counted as a played game with half a win.

3. Registration of Teams.

3.1 Clubs must submit to the League, the completed Club Registration Form, showing details of club management and number of teams being entered into the League's competition, by the date specified by the Management Committee.

3.2 Clubs must submit the completed Team Roster form with full details of all players and officials by the date specified by the Management Committee.

3.3 The Management Committee reserves the right to refuse the entry of any team and/ or the registration of any person.

3.4 All monies owing by the club arising from accounts issued by the League, must be paid by the date scheduled by the League. Any club in breach of this rule will not be permitted to continue in the competition, unless special approval has been granted by the League.

4. Registration of Players and Officials. This League recognises those players registered by the League as per the following rules.

4.1 No player 13 years or younger, may play in any Senior Competition. To be registered in this League players must turn 14 years before the start of the season in which he is applying to play.

4.2 Each club shall register the name and address of each player, coach, manager and scorer on, and fully complete, the form prescribed by the League. All registrations must be in the hands of the League by the date determined by the Management Committee each season.

4.3 Except by special permission of the League, no new player registrations will be accepted after the 31st October (summer season) or 31 May (winter season).

4.4 Only persons whose registrations have been completed, submitted by the determined date and approved by the League, may participate in competition games.

4.5 Should a player, coach or manager change their address, their club must notify the League within 14 days.

4.6 All players must be fully paid registered players with the Sydney Metropolitan Baseball League. No defaulters will be accepted until they have presented proof that the debt has been paid.

5. Transfers and Clearance.

5.1 A player who transfers from one club to another must secure a clearance from the original club stating that they have been cleared of all financial obligations to that club. The club to which they transfer may register them without receiving a clearance and they may participate in games with that club provided that, if no clearance is eventually granted, each game in which the player has participated shall be debited as a forfeit, after such disclosures and on lodgement of a protest by the offended club.

5.2 Any player in debt to a club, may be listed with the League as a defaulter. Defaulters must be notified by the 31st October (summer season) or 31st May (winter season). After this date, no defaulters will be added to the list for that current season.

6. Eligibility of Players. (Note: playing an ineligible player will result in forfeit of that game.)

6.1 No new players shall be eligible to take part in any match after the determined registration date unless approved by the League and the registration forwarded within 48 hours. Any breach shall result in the forfeiture of any matches that the player has participated in.

6.2 Any team not having nine (9) players may play registered players from a lower grade from their own club.

6.3 A team cannot take the field unless it has a minimum of six (6) players registered with that team.

6.4 No player having participated in four (4) competition matches in a particular grade, shall be eligible to play in a lower grade unless approval has been given by the League.

6.5 Where two or more teams are entered by one club in the same grade players must play only for that team for which they were originally registered unless special permission has been granted by the League. Breaches of this rule will result in a forfeit being recorded against the offending team. Special permission may be granted by the League to re-register players.

6.6 No player or coach may play or coach with more than one club in the same competition, during the same season without the approval of the League. Any request under this rule will not be granted after 31st May (winter season) or 31st October (summer season).

6.7 Seven (7) players in a given game may constitute a team, as long as substitutes can be found to field. Substitutes must be registered with the League and can be loaned from opposition teams or from within their own club.

6.8 No substitutes shall play if there are registered players available who have not yet participated in the game.

6.9 Substitutes shall only be eligible to play in the outfield.

6.10 Substitutes are entitled to bat except in the case where the opposition team only has nine (9) players and is lending players for fielding. In this case the intended substitutes turn at bat will be declared an out unless both teams agree to the contrary.

6.11 A player who has been substituted and voluntarily removed from the game may, due to injury to another player, re-enter the game as an outfielder provided no other fresh substitutes are available.

7. Game Rules.

7.1 The starting and scheduled completion times for games shall be those stated in the Competition Schedule issued by the League.

7.2 Games shall be 2 hours or 9 innings.

7.3 It shall be a regulation competition game if the umpire certifies that play has proceeded for at least half ($\frac{1}{2}$) the regulation time or 4 innings ($3\frac{1}{2}$ innings if the home team is leading).

7.4 In the event of a game not being declared a regulation game for any reason (other than a forfeit), the game will be declared a "no game" and no game win/loss results will be recorded towards either team's points percentage.

7.5 For all games, the top half of an innings shall not begin less than ten (10) minutes before the scheduled finishing time. In the first game of scheduled double games on the same field, play will cease with the completion of the time at bat of the player in the batting box at the scheduled finishing time. In the last scheduled game, or where there is a single game drawn on the ground, if an inning is not completed at the scheduled finish time, play will continue until the bottom half is completed or the side batting in the bottom half has scored the winning run.

7.6 A team receiving a forfeit shall be regarded as having scored a nine (9) to nil (0) win, and the losers a nil (0) to nine (9) loss, for the purpose of compiling the average of runs for and against.

7.7 The final score, when an unequal number of innings has been played, reverts back to the last equal innings except where:-

- a) The team in the bottom of the innings is at bat and is ahead or tied.
- b) The team last at bat was behind the previous innings and still behind when time is called in which case all runs scored count.

examples follow.

Example: Team A bats first.

A	=	6	then bats, score	0	=	6	
B	=	4	incomplete innings	2	=	6	game tied.
A	=	6	then bats, score	1	=	7	
B	=	4	incomplete innings	2	=	6	A wins 7-6
A	=	5	then bats, score	3	=	8	
B	=	7	incomplete innings	0	=	7	B wins 7-5 as score reverts

7.8 In the event of a team being unable to field seven (7) registered players, or failing to appear at the ground within ten (10) minutes of the scheduled starting time or refusing to proceed to play when directed by the umpire to do so, the opposing side shall be awarded the game on appeal to the umpire. The team forfeiting in such circumstances shall be required to pay equivalent to normal umpire's fees where umpires have been appointed to that game.

7.9 If at the conclusion of the seventh (7) innings of a game or at the conclusion of any completed innings thereafter, a team is ten (10) or more runs ahead, such team shall be declared the winner.

7.10 In all grades a team may elect, if extra players are available, to name up to a maximum of twelve (12) players in the team batting line up. If electing to bat more than nine (9) players then all players listed on the line up must bat. Players must continue to bat in named order. They may be substituted by fresh players but any voluntary removal from the batting line up which reduces the number of batters shall be declared an automatic out. The named players may be substituted in the field by other named players on unlimited occasions but only at the end of completed innings. However not with standing, replacement of players due to injury is allowed at any time and injured players cannot return to the game except when temporary removal is required to comply with the Blood Rule (7.13).

7.11 **In G & H grade** competitions a maximum of 7 runs may be scored in any one innings. Once the seventh run is scored the umpire is to call "side away". The only exception to this rule is if the final play involves an out-of-the-park home run – in that case all runs would score.

7.12 The League is committed to the principle that the competition is to be played in the true spirit of the game. Where the actions of teams are deemed by the umpire to be either deliberately getting themselves out or not attempting to achieve outs in order to affect the result of the game, the umpire has the authority to declare the game a no game or award the game as a forfeit against the team which is breaching this rule.

7.13 **Blood Rule:** Should injury to a player during a game produce blood then that player must immediately be removed from the game until the wound is dressed and the flow of blood stopped. Players who are injured in the course of a game and who require treatment to stem the flow of any body fluids may leave the game without penalty. If on bases a substitute runner may be used until replaced by the original player. If at bat the player may obtain treatment and if unable to be treated within a reasonable period the batting order shall continue without penalty with the next batter in the lineup batting.(The player shall in this case not bat again until their turn in the order again arrives and if not fit to take this turn at bat shall be replaced, if this has not already occurred.). If in the field the player may be substituted while treatment is applied.

7.14 Coaches shall be able without penalty to make one (1) visit to the pitcher in an innings. On the second (2) visit the pitcher must be replaced but may remain in the game. Any pitcher replaced under this rule cannot pitch again in that game.

8.2 The fitness of the ground for competition games shall be decided by the authorities controlling the ground, or by the officially appointed umpire, in that order. If no officially appointed umpire is in attendance, then the coaches must decide. If the coaches disagree the game is declared a 'no game'. This rule will not be subject to protest.

8.3 The umpire, upon being made aware that the layout of the diamond is incorrect, shall ensure that it is corrected immediately.

8.4 In the event of the game not being played because of the unfitness of the ground, the result shall be declared a no game unless the two (2) teams advise the Management Committee within seven (7) days that by mutual agreement they will replay the game. Any replay must be played within one calendar month or before the first semi-final weekend – whichever is earliest.

8.6 In the event of an official League umpire not being allocated or attending at the time set down for the game to commence or being able to continue, it shall be the home clubs responsibility to appoint an umpire.

8.7 The home team shall dress and set up the ground prior to the game in accordance with the Rules of Baseball. Duty of care requires that the pitcher's mound and home plate area are prepared before the second game of a double-header. Non compliance may result in the home team forfeiting the game.

8.8 The team named first in the competition draw shall be the home team and will have first choice of dugout and field first in the game. If the game is played on a neutral ground the home team will not have a choice but will take the first base dugout.

The score will revert to the last completed innings provided that the team batting last has not drawn or won the game in incomplete innings.

- 19.9 In the Grand Final where the game, even with extra time, results in a draw, the game will be replayed the following week. If the late game is drawn, up to two extra innings will be played after the scheduled finish time in order to achieve a result. If still drawn the game will be replayed the following week or at a date determined by the League.
